

Alexandra Kelstrom

Senior Software Engineer | AI Enablement & Responsible AI

Philadelphia, PA | akelstrom@icloud.com | US/EU Dual Citizen | [codewizwit.github.io](https://github.com/codewizwit)

SUMMARY

Software engineer and technical leader who coaches engineering teams on AI adoption and translates responsible AI principles into scalable engineering practice. Background spanning design, service, and six countries shaped how I translate complex technical concepts for any audience and build bridges across engineering, product, and leadership. Speaker, writer, and builder committed to a future where technology serves people, with no human left behind.

SPEAKING & PROJECTS

- **AI Summit NY 2025:** Selected as Future AI Leader; presented "Human-in-the-Loop: Responsible AI Engineering in Practice"
- **Vanguard IGNITE 2026:** No Human Left Behind
- **Dispatch №13 (@codewizwit):** Ongoing Medium series on responsible AI, ethics, and engineering
- **Human-in-the-Loop CLI:** Published NPM package, a command line interface library of human-centered prompts designed to augment developer expertise

EXPERIENCE

Senior Software Engineer, AI Enablement

Jan 2026 - Present

Vanguard | Philadelphia, PA

- Coaching 4 engineering teams on responsible AI adoption, accelerating development to production in half the time while retaining quality; driving standardized evaluation criteria across product family
- Building "Awesome AI Governance": a centralized governance registry of AI tools using cloud-native infrastructure (Lambda, S3, EventBridge, DynamoDB, Bedrock) that supports innovation while preserving human judgment by providing visibility into security, documentation, and developer experience at enterprise scale
- Facilitating Claude-to-code and Claude-skills building workshops across 4 engineering teams, delivering reusable assets and knowledge that compound in value through increased productivity
- Developing Claude Code curriculum and training materials bridging technical and non-technical audiences across 16 teams
- 2x GOAT (Greatest of All Time) award recipient for driving measurable outcomes across AI initiatives

Software Engineer | Testing Practitioner | Interim Tech Lead

Jun 2021 - Dec 2025

Vanguard | Philadelphia, PA

- Interim tech lead; delivered full-stack enrollment and micro-frontend UI feature end-to-end, scaling financial advice to 1M+ clients
- Earned Distinguished performance rating 2 consecutive years (2024-2025), highest competitive tier
- Automated end-to-end testing workflow, reducing manual QA from hours to under 3 minutes with CI/CD integration
- Advanced data modernization milestone by 1 year and reduced production defects by pitching and implementing cloud-only solution for dual-write orchestration microservice, decommissioning legacy SQL writes for 4/9 endpoints.
- Built micro frontends (Angular, React, Nx, TypeScript), and backend services (NestJS, Java, SQL, DynamoDB, Python, AWS Lambda, ECS, S3, Kafka)
- Served as team Testing Practitioner, driving 10-15% code quality increase with Playwright, Cypress, Cucumber and Jest; coaching team on emerging test strategies

SKILLS

Languages & Frameworks: TypeScript, JavaScript, Angular, React, Node.js, NestJS, Java, Python

Cloud & DevOps: AWS (Lambda, Bedrock, ECS, S3, CloudFormation, IAM), Azure, REST APIs, Serverless Architecture, CI/CD, GitHub Actions

AI & Governance: LLMs, Agentic AI, Claude Code, AWS Bedrock, LangChain, Human-in-the-Loop Patterns, Responsible AI

Testing & Quality: Cypress, Playwright, Jest, Cucumber (BDD), GitHub Actions, E2E Test Strategy, Automated Pipeline Design

Architecture: Micro-Frontends (Nx/Monorepo Architecture, Module Federation, Data Modernization, Event-Driven Systems, SQL, NoSQL)

Leadership & Tools: Team Leadership, Agile/Scrum, Performance Coaching, Mentoring, Cross-Team Collaboration, Jira, Confluence, GitHub

Human Skills: Empathy & value-driven problem solving, cross-team collaboration, communication, initiative, creativity

EDUCATION

UPenn LPS Coding Bootcamp, Full-Stack Web Development (2021). *Invested life savings after COVID furlough. Received Vanguard offer day of graduation.*

DePaul University, BA in Media & Design (2015)

AFFILIATIONS

- **Philly Crew Committee:** Hype coordinator since 2022; planning events and moments that keep the crew thriving. Co-led hoodie design contest and fundraiser for winning design raising \$250+K for Strong Start For Kids PA
- **AI Connect Committee:** Driving AI tooling best practices and cross-team governance alignment
- **All Tech Is Human:** Member; Responsible AI Foundations Professional Certificate
- **Responsible AI Institute:** Member
