

# ALEXANDRA KELSTROM

## AI Enablement Engineer | Responsible AI, Developer Experience & Quality

Philadelphia, PA (Open to Chicago, Remote, EU) | [akelstrom@icloud.com](mailto:akelstrom@icloud.com) | US/EU Dual Citizen

[linkedin.com/in/akelstrom](https://www.linkedin.com/in/akelstrom) | [github.com/codewizwit](https://github.com/codewizwit) | [codewizwit.medium.com](https://codewizwit.medium.com)

### SUMMARY

Software engineer and technical leader who coaches engineering teams on AI adoption and translates responsible AI principles into scalable engineering practice. Five years building production financial systems at Vanguard, now working independently under the codewizwit brand. A background spanning design, service, and six countries shaped how I translate complex concepts for any audience. Speaker, writer, and builder committed to a future where technology serves people, with no human left behind.

### SPEAKING & PROJECTS

- **AI Summit NY 2025:** Selected as Future AI Leader; presented "Human-in-the-Loop: Responsible AI Engineering in Practice"
- **Baruch College AI Ethics Symposium** (Mar 2026) | **Vanguard IGNITE** (Feb 2026): "Testing Strategies for Bias and Blindspots in AI Workflows"
- **das-cli (npm):** Open-source documentation-as-a-skill CLI; one set of docs serves both people and AI assistants
- **Human-in-the-Loop CLI (npm):** Open-source CLI of human-centered prompts; taught me how to build responsibly with AI
- **Dispatch №13 (@codewizwit):** Ongoing Medium series on responsible AI, ethics, and engineering

### EXPERIENCE

#### AI Enablement Engineer | codewizwit (Independent)

Remote | May 2026 – Present

- Led staff AI enablement for a Chicago education nonprofit (325+ students): adoption roadmap, onboarding, curriculum
- Architected the organization's Claude Code workspace: shared plugin, data repository, and managed settings for governance
- Co-designed the roadmap for an organizational knowledge assistant integrating the Microsoft 365 and Teams environment

#### Senior Software Engineer, AI Enablement | Vanguard

Philadelphia, PA | Jan 2026 – Jul 2026

- Built an event-driven AI governance platform (AWS Lambda, EventBridge, DynamoDB, Bedrock) reviewing AI tool submissions
- Led a context engineering and AI-readiness initiative for a product sub-family, turning docs into reusable AI context
- Coached 4 engineering teams on AI-assisted development, cutting delivery time in half while holding the quality bar
- Co-designed and piloted AI training curriculum for 20+ advice technology teams; adopted as the AI training standard for IT
- 2x GOAT (Greatest of All Time) award recipient for driving measurable outcomes across AI initiatives

#### Software Engineer | Testing Practitioner | Interim Tech Lead | Vanguard

Philadelphia, PA | Jun 2021 – Dec 2025

- Served as interim tech lead, delivering a full-stack enrollment capability that scaled trustworthy financial advice to 1M+ clients
- Built backend services in NestJS, Java, and Python on AWS, plus Angular and React micro frontends in an Nx monorepo
- Architected the cloud solution that decommissioned a legacy DB2 database, advancing data modernization by a full year
- Reduced manual QA from hours to under 3 minutes with an automated E2E testing pipeline; drove a 10-15% code quality increase as team Testing Practitioner (Playwright, Cypress, Cucumber, Jest)
- Earned Distinguished performance rating, the highest competitive tier, 2 consecutive years (2024-2025)

### SKILLS

**AI & Governance:** Claude Code, AWS Bedrock, LangChain, responsible AI, human-in-the-loop patterns, context engineering

**Languages & Frameworks:** TypeScript, JavaScript, Node.js, NestJS, Angular, React, Java, Python, REST APIs

**Cloud & DevOps:** AWS (Lambda, ECS, S3, EventBridge, IAM), DynamoDB, serverless, CI/CD, GitHub Actions

**Testing & Quality:** Playwright, Cypress, Jest, Cucumber (BDD), E2E test strategy, automated pipeline design

**Collaboration:** Cross-team leadership, mentoring, performance coaching, Agile/Scrum

### EDUCATION

**UPenn LPS Coding Bootcamp,** Full-Stack Web Development (2021). *Invested life savings after a COVID furlough; hired at graduation.*

**DePaul University, Chicago,** BA in Media & Design (2015)

### AFFILIATIONS

- **Responsible AI Institute:** Working group member translating responsible AI principles into engineering practice
- **AI Connect Committee (Vanguard):** Drove AI tooling best practices and cross-team governance alignment
- **Philly Crew Committee (Vanguard):** Culture coordinator 2022-2026; co-led a \$250K fundraiser for Strong Start for Kids PA
